## A FEW WORDS

I know the importance of memories.

Those of happy moments, those of insouciance, those of comfort.

In the beginning, there is the sweet nostalgia of childhood, and a sharp consciousness of what moves my senses.

Everything else is but the extension of it.

I see the image as a door.

One of those that bring us back to what we thought was lost.

Our remembrances sail on the waters of our memory and are brought back to us, pushed by the wind of our senses.

## MY PHILOSOPHY

Have you ever felt this tension between the desire to extend a moment of happiness and the reality of the ephemeral ?

To fill oneself with the present. To savor it.  
To extract the sap of it so it can remain intact, as if it was floating.

I do not believe in fatality.  
Our memories fade. The edge of the emotions we experienced become blurry.  
And yet, they take various and unexpected paths to resurface and to soothe us  
with their tenderness.

You might already have been surprised by the power with which our senses carry us  
towards our memories.

This journey is within easy reach.

Stripped-down, bright and warm pictures that will endure the test of time, surrounded by  
your family, friends and loved ones, gathered for one of the most unforgettable day of  
your life.

Our memories make our story. What will yours be ?

*« Quentin was able to capture very touching moments of us and our loved ones. I would have had a lot of regrets if I had not chose him for our wedding. He took the time to meet us before so as to know what were our expectations and was very discret all along our wedding. The pictures he delivered are timeless memories. Quentin will perfectly know how to highlight your wedding with his professionalism and his savoir-faire! Thank you again ! »*

## FREQUENTLY ASKED QUESTIONS

### « How would you describe your aesthetic ? »

Three words: refined, bright, warm.

I aspire to create timeless pictures that will endure time and trends and will take you back to your memories with the same intensity and the same pleasure each time.

### « What is your approach of a wedding ? »

I am by your side to define what makes the heart of your wedding and what to put the emphasis on. Our dialogue goes on all day long during your wedding. I am a witness, and not a maker of your big day. As such, I gravitate more than I intervene so that I do not disturb your wedding.

### « Do you move ? »

I am Paris based but I am available everywhere in France and bordering countries.

The prices mentioned do not include flight, train, road, hotel, food or any necessary fee in relation with a trip.

### « What languages do you speak ? »

French is my native language, but I am also fluent in English.

« When can we expect our memories to be delivered ? »

Post-production is a long process that demands precision, time and detail oriented attention. Eight weeks will be necessary, from the day of your wedding, to complete this work and deliver pictures that fit your expectations.

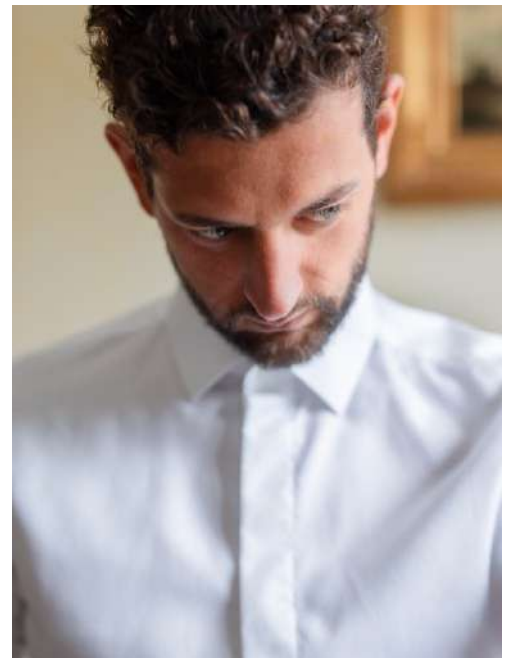

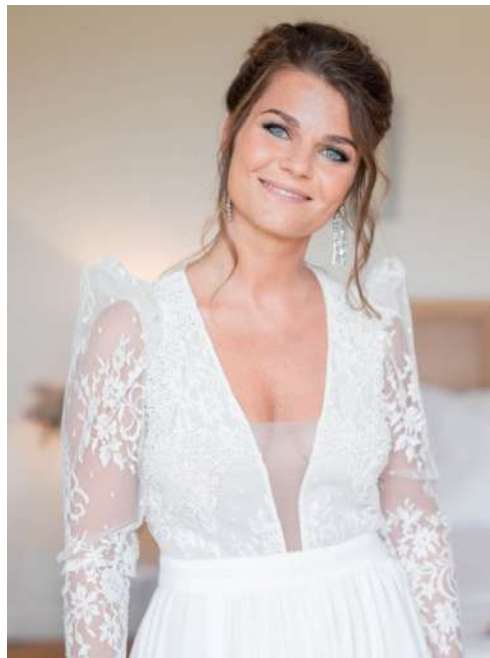

« What form does our meeting will take ? »

I systematically favour a physical meeting if possible. Paris or the surrounding area are often a good location. If we cannot meet physically, we will do a video meeting. This time is dedicated to knowing each other so as we are not strangers on the day of your wedding. Planning is of course a central element of our conversation, but the most important topic will be your expectations and what is the most important for you to remember.

« What does an engagement session consists in? »

Your engagement session is planned before your wedding. The first benefit is to take an extended time that is not always available on your wedding day to create contemplative pictures of both of you apart from people. The second is for you to get used to my presence and not being disturbed during your big day. *Naturel* does not surface by magic, we need time to create an atmosphere that allows you to express yourself and let go of shyness.

Interactions are key to create something meaningful and they will be the most important element to focus on. To do this, I will more often invite you to dedicate yourself to the other, rather than telling you to take rigid poses that sometimes feel uncomfortable and not natural. The main idea is to make your love emerge.
